SUMMARY

Front-end developer with 8+ years building responsive, accessible interfaces in JavaScript, React, Vue, and Node.js. Strongest on CMS-driven sites and reusable UI components. Part of a small team that refactored 2,000+ pages across six government sites on Oracle Content Management (OCI); owned server setup and batch content migration. Comfortable taking UI from layout through implementation, integrating REST APIs, and tightening performance, accessibility, and publishing workflows.

KEY SKILLS

Languages & Frameworks: JavaScript (ES6), HTML5, CSS3, React, Vue, Node.js (Sails.js)
UI / Design: Figma, Photoshop, Sketch, Formik, Chakra UI
CMS: WordPress, HubSpot, Squarespace; Oracle Content Management on OCI
Cloud & tools: OCI (server setup), AWS S3, Git, Heroku
Familiar: TypeScript, GraphQL, Docker

EXPERIENCE

Front-End Developer (contract) — *2024 - Present*

Mystic Interactive

- Designed and built the Crystal Conquest marketing site on Squarespace with significant custom JavaScript, CSS, and third-party components.
- Set goals with the owners, then implemented layout and UI; wired HubSpot for forms, tracking, and publishing.

AI Writing Engineer (contract) — *2023 - Present*

Outlier & Alignerr

- Reached highest reviewer tier; refined training prompts and model outputs for clarity, accuracy, and consistency across projects for companies including OpenAI, Meta, and Scale.
- Contributed to dozens of AI-training projects with hundreds of tasks spanning web development, writing/prompt refinement, audio transcription, image generation quality review, and video labeling.

Front-End Developer — *2020 - 2022*

Motiv

- Refactored 2,000+ pages across 6 Cayman Islands government sites on Oracle Content Management (OCI); owned server setup and content migration.
- Built reusable CMS components and 200+ implementation docs so later pages did not need one-off templates.

Web Developer — *2018 - 2020*

The Sails Company

- Built full-stack apps from the ground up for real estate, title insurance, industrial IoT, and professional services clients using Vue, Sails.js, and Node, serving 10,000+ active users.
- Integrated Zoho CRM, Stripe, and other tools to improve UX workflows.
- Supported the Sails.js open-source community — answering developer questions and creating training materials alongside the framework's founder.

User Experience (UX) Specialist — *2015 – 2018*

UserTesting

- Conducted UX research across 1,000+ mobile/desktop apps, games, websites, and prototypes for hundreds of companies.
- Ran live prototype demonstrations and unreleased product testing with stakeholders and product managers at industry conferences.

AppleCare Technician — *2012 – 2014*

Apple Inc

- Supported 10,000+ customers with desktop and mobile issues, capturing data on 500+ emerging issues for engineering teams.
- Helped identify UX friction points and product pain patterns through direct user feedback at scale.

EDUCATION

Bachelor of Arts (BA): Communications Media & Journalism — *2012*
St. Edward's University, Austin, Texas
